RE: Water Fountain Key

Thanks Edward. Yes, but we will not begin installing booster pumps until mid-January and I will make sure Warren Easton receives them for those system experiencing low water pressure.

Best,

Tiffany Delcour

Ms. Delcour,

Thank you for your prompt attention to this matter. The technician came out this morning, checked our fountains, and issued keys. All of our fountains are currently working. Majority of our fountains, especially on the higher floors, only provide a 1-2 inch arc of water. Is it possible to install water pressure boosting equipment at each fountain?

Ms. Delcour,

There are a total of 3 water fountains that are not working. 2 are located on the second floor outside the library door. Neither fountain has water pressure and one of the filtration boxes is leaking. The 3rd fountain on is outside of room 307. It's water pressure is at a trickle. Janitorial has indicated that the fountains have been out for several weeks.

We have 4 water fountains that do not work at all. One of the 4 has a leak from inside the box.

Thank you Tiffany. I haven't seen any keys. I'll check with the custodian crew. We've had problems with a few of the water fountains for some time now.

Lindsay,

Key's were supposed to be transferred after the install was complete. Let me know if you do not have keys and we will get another set for you. Are you having issues with the water filter systems?

Hi all—

Not sure who the most accurate person to contact.

We will need access to the water filter boxes. Can you please advise on how to gain access?

Thank you,
Lindsay
